FIRST PARLIAMENTARY SUMMIT
Zagreb | 24 October 2022

Your Excellency!

Today, the attention of the whole world is focused on Ukraine and the courageous struggle of its people for restoration of Ukraine's territorial integrity.

Russia's armed aggression, which began in 2014 with the temporary occupation of the Ukrainian Crimea, on 24 February, 2022, has acquired threatening scale and its consequences have been felt far beyond the borders of Ukraine.

Russia is currently using the temporarily occupied Crimea and the waters of the seas around it as a military outpost for the attack on Ukraine. The Black Sea and the Sea of Azov, that are blocked for civilian shipping, have become a threat to world's food security inaccessible over the past 8 years for the Government of Ukraine and for the monitoring missions of international organizations. Crimean peninsula has turned into a place of total destruction of human rights and freedoms as well as systemic violations of international humanitarian law.

The de-occupation of Crimea is not only a matter of ending the war and restoring the territorial integrity of Ukraine, but also a necessary condition for achieving peace and stability in the entire Euro-Atlantic space.

With this understanding, on 23 August 2021, states and international institutions have joined their diplomatic efforts with the aim of peaceful de-occupation of Crimea and established the International Crimea Platform, which currently has 48 participants, as well as adopted the Joint Declaration of the International Crimea Platform Participants.

The activity of this international coordination and consultation format is carried out on governmental, parliamentary and expert levels and in 5 priority areas: development of the non-recognition policy, ensuring the effectiveness of sanctions, protection of human rights and international humanitarian law, strengthening of safety and freedom of navigation, overcoming economic and environmental consequences of the occupation.

The activity of the international parliamentary community is intended to be a powerful contribution to the achievement of these aims. Only by joint efforts and pressure on Russia in all possible international formats we will be able to achieve the ultimate goal of creating the International Crimea Platform - the liberation of Crimea.

We invite you to visit Zagreb and take part in the Parliamentary Summit of the International Crimea Platform on 24 October 2022.

We are convinced that your participation in the Summit will become another testimony to the unity of the international community in defending the norms of the international law, which defines that Crimea is Ukraine.

Sincerely

Ruslan STEFANCHUK
